

FormsteelTM

WORLD CLASS STEEL BUILDINGS SINCE 1972

ARENA BUILD

ENGINEER THE PERFECT ENVIRONMENT WITH ARENA BUILD

Formsteel understand complex large span steel structures beyond the ordinary. Its what we are good at. Our expertise in equestrian & customised sporting buildings offer world-class structures that enable high performance, just like the National Equestrian Centre in Taupo. We've found the majority of clients considering building an equestrian or similar type of arena, the top priorities are space efficiency and project cost control, and thats where we add serious value.

ARENA BUILD By Formsteel™

**WHEN YOU NEED TO GO BEYOND THE KITSET SHED, TALK TO US.
WORLD CLASS SINCE 1972**

**UP TO 75M SPAN WITH A CENTRE COLUMN
UP TO 15M STUD HEIGHT
IDEAL FOR LARGE SCALE CUSTOM BUILDS
DELIVERED ON TIME TO EXACT SPECIFICATION
PREMIUM GRADE MATERIALS & BUILT TO LAST
LESS CARBON FOOTPRINT THAN STRUCTURAL STEEL**

This is our sweet-spot, producing NZ's largest clear-span of up to 40m, or up to 75m span with a centre column, maintaining absolute structural integrity. The building structure can be designed to 15-metre stud height, giving excellent coverage for outdoor sports areas, enabling better use all year round. The National Equestrian Centre in Taupo is a testament to the pioneering steel-building excellence we deliver.

Formsteel ARENABUILD can be engineered to meet any national and regional building requirements. We'll work closely with you to analyse the location of the proposed design to ensure that it meets building criteria for wind and snow loads of your area. Made with ultra-high tensile galvanised steel that's corrosion-resistant, we can provide excellent coverage for outdoor sports areas, enabling better use all year round.

No matter how big or small the project is, we're with you every step of the way, being on-site and having your needs and requirements at the forefront of every interaction. With nearly 5 decades in the industry, we've partnered with the best suppliers in the industry, allowing us to utilise materials that deliver the quality and reliability you demand. Delivered on time, made to detailed specifications and built to last, Formsteel are the experts in large scale steel structures.
